

## MacMillan Lecture

Last summer the interest of all was focused upon the Donald B. MacMillan Expedition. The United States Navy provided air planes, and the expedition flew more than 6000 miles traversing a 30000 square mile sea, and came back with men safe despite handicaps of unexpected summer snows, fog, high wind and unknown terrain.

On Wednesday, Feb. 17 in Provincetown Theatre we will hear more of this expedition, for it is then that Capt. MacMillan will deliver his Arctic Lecture illustrated by motion pictures. The lecture needs no advertising, for already people are calling for the tickets. Price of evening tickets 75 cents. School Matinee tickets 25 cents.

---

## MacMillan Banquet

In Center Church on the evening of Thursday, Feb. 18, the Research Club will give a Public Banquet in honor of Captain Donald B. MacMillan. Center Church was MacMillan's home church when a boy, and it seems a fitting place for the people of Provincetown to come together and meet this great man, who claims Provincetown for his birthplace. Toastmistress of the occasion will be Rev. Nancy Paine Smith, speeches from MacMillan and some of his friends will make a wonderful evening, one that will be long remembered by all who attend.
