

06-29-78

Sorry this took so long — you can see from the envelope that it took the people who did the tapes from 26 May to 29 June — just to make two copies. The master is now in Hollywood being transcribed on to micro-groove disc.

This copy is yours, by the way. I have sent another set of tapes to Eben, and as he has no tape deck I expect he will pass those on to the Provincetown Museum.

Thanks for all your good work in April and May — everything got here.

Regards — John Ureli
