Mr. Maurice C. Brigadier  
President, Provincetown Property Owners  
Protective Association  
479 Commercial Street  
Provincetown, Mass.

Dear Mr. President:

I have your letter of October 20.

What we are trying to do is to get a Resolve passed whereby the matter of what may be done as respects the Province Lands being added to Provincetown will be carefully studied. It was originally to be done by the Division of Waterways alone but later on there were added the Chairman of the Board of Selectmen of Provincetown and the Chairman of the Planning Board.

I think, however, we can promise that your organization will be notified of the public hearings which I am certain, on account of the feeling of the Director of the Division of Waterways, will be held. That, of course, is the only fair thing to do and I expect it will be done.

I quite appreciate the position you have taken and thank you for writing me.

Yours sincerely,

A handwritten signature in cursive script that reads "Edward C. Stone".
