WEDNESDAY, APRIL 16, 1958

There is plenty of activity all thru the town and all along Beach Point which certainly indicates that a busy season is being anticipated. Chester Peck of the Provincetown Inn has worked hard all winter with his crew building a 32 unit Motel and putting in a big swimming pool. The pool is built in the shape of a Pilgrim's hat. Nothing could be more appropriate on the exact spot where the Pilgrims first landed. We like, too, the wading pool just a few yards away for the small fry. The overall picture of the motel built on filled-in land at the rear of the Inn, the pools surrounded by grass, colorful beach umbrellas and chairs will be a picturesque spot and perfect for a Cape Cod vacation right on the beach.

New England Sports Car Club Opens Provincetown Inn And Motels

Provincetown Inn and motels are preparing to welcome more than 200 members of the New England Sports Car Club Saturday for a two-day visit. It is estimated that there will be a sports car for every two people, at least. Manager Chester Peck has stocked his refrigerator well with fresh bay scallops and oysters from Wellfleet as well as lobsters for the dining room and coffee shop to take care of the visitors who will open an early season for the Cape End. Neil Gray of North Scituate is club chairman for the event here.
