ARCHITECTURAL DESCRIPTION

see continuation sheet

Describe architectural features. Evaluate the characteristics of this building in terms of other buildings in the community.

5 Winthrop Street is a 1-1/2-story, 3-bay, sidehall dwelling with 3-bay side ell; fenestration includes 6/6 wood DHS with inoperable shutters throughout, windows on 2nd floor of front facade have flat roof with paired brackets; recessed entrance on southwest end of front facade is accessed by a wood panel door and modern storm door; door surround includes pilasters and heavy entablature supported by paired brackets; entry reached by brick steps; full cornice returns with paired brackets; corner pilasters; skylights. Side ell has interior concrete block chimney; entrance on left with multi-pane wood door, pilasters and flat hood with brackets and concrete steps; gable dormer with metal casement; frieze board with brackets; south of building connected by 1-story flat roof hyphen to 2-story, 1-car garage; flat-roof hyphen has a roof-top deck. Garage has cross gable with full return; corner pilasters; modern overhead garage door; and 3 single-pane metal casement windows.

HISTORICAL NARRATIVE

see continuation sheet

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.
