ARCHITECTURAL DESCRIPTION

see continuation sheet

Describe architectural features. Evaluate the characteristics of this building in terms of other buildings in the community.

11 Johnson Street is a 2-story, 3-bay sidehall dwelling. The front gable roof is clad in wood shingles; partial returns; gable wall dormer on south facade; frieze below eaves; shed dormer on north roof slope with partial returns; interior brick chimney at peak. Corner boards present. The main entry consists of a pane and panel wood door with modern storm; flat hood with brackets; accessed by brick steps and simple wrought iron hand rail. A secondary entrance at southeast with wood steps and flat block over door. Fenestration includes 2/2 wood DHS with entablature lintels; stained glass awning windows on south facade. A bay on the south facade has a flat hood, brackets under eaves, and scalloped trim.

HISTORICAL NARRATIVE

see continuation sheet

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.
